

1. Fixed Gaussian representation: complexity and performance
 Blue bands: pointwise 95% block bootstrap. Red line: mean validation-selected complexity.
 Grey crosses: descriptive test-period maxima; selected-policy Sharpe is reported separately.

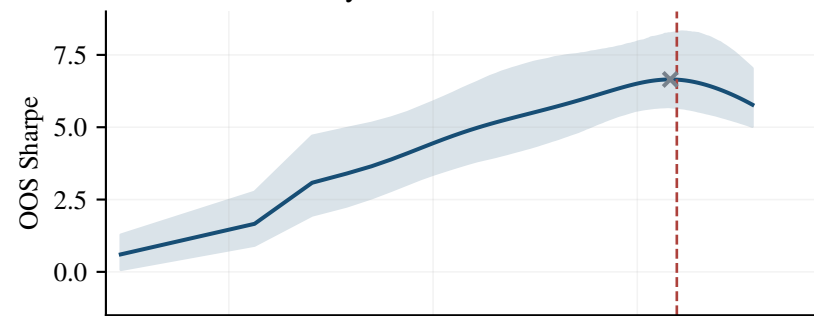

1978-1989 decision years | 144 OOS months

1978-1989 | overlapping training windows

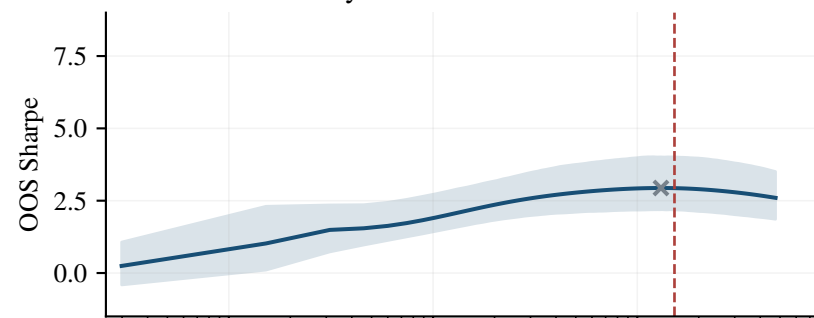

1990-1999 decision years | 120 OOS months

1990-1999 | overlapping training windows

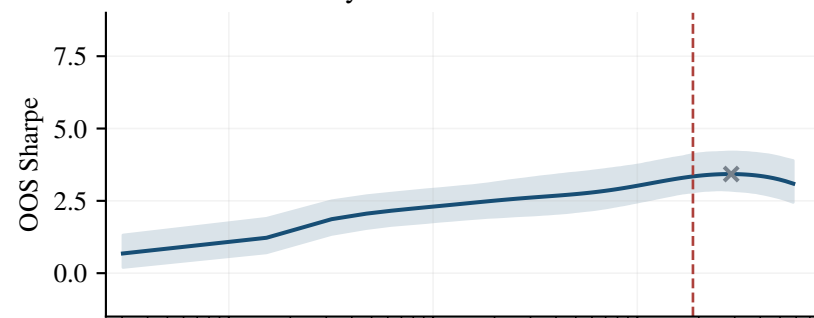

2000-2009 decision years | 120 OOS months

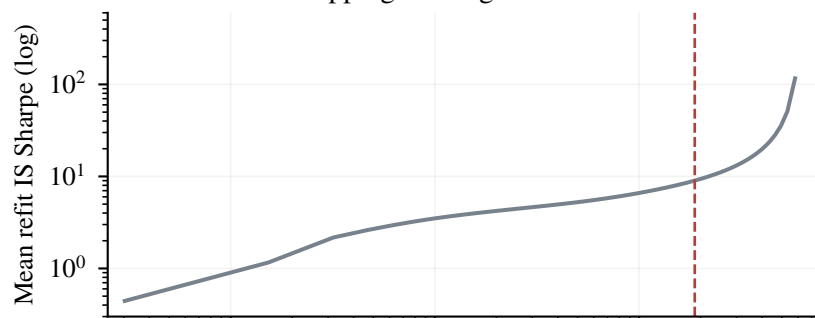

2000-2009 | overlapping training windows

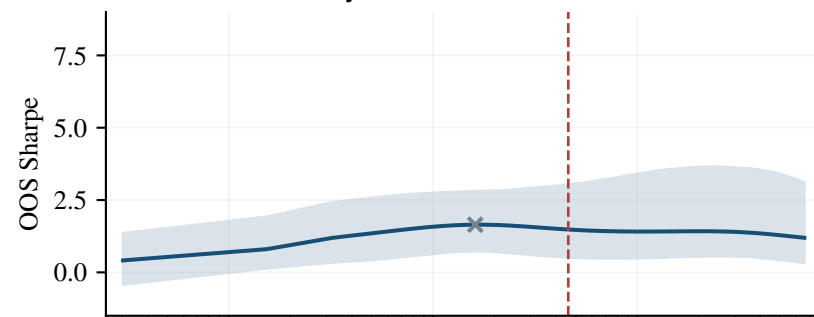

2010-2019 decision years | 120 OOS months

2010-2019 | overlapping training windows

2020-2024 decision years | 60 OOS months

2020-2024 | overlapping training windows

Mean effective complexity $\bar{C}(\lambda)$ (log scale)
